Made by Reichstag Group for Retirement of Von Bethman-Hollweg

HIS POLICY IS CRITICISED

Attempts to Reach Agreement With England and First Attitude Toward Belgian Neutrality Are Attacked—Political Truce Broken By Saxon Socialists Who Name Candidate

(ASSOCIATED PRESS TELEGRAM) Berlin, Oct. 4.—(Via London, Oct. 4.)—The campaign against Chancellor von Bethmann-Hollweg is daily assuming a more tangible form. One of the latest developments is a circular demanding the retirement of the chancellor which has been sent by a vociferous group of his opponents to such members of the reichstag as are considered open to their arguments.

The indictments covering almost everything in the chancellor's conduct of foreign affairs before and during the war attacks are made in particular on his attempts to reach an agreement with England, his first attitude toward Belgian neutrality and his policy in the submarine issue. The only name of international prominence among the signers is that of Ernest Haackel, and the circular is regarded as symptomatic rather than serious.

Another factor which is disturbing the political situation is a breach of the political truce proclaimed at the outset of the war which has been made by the Saxon Socialists. This faction has determined to run a candidate for the seat in the reichstag vacated by the death of the conservative, Ernest Eduard Giese. This determination violates the general agreement between the political parties that all vacant seats shall be resigned without contest to the party holding them at the outset of the war.

CHINESE LABORERS REMOVED FROM A GERMAN COLONY

(ASSOCIATED PRESS TELEGRAM) Pagonago, Samoa, Sept. 18.—Correspondence of the Associated Press.)—The steamer Chang Sha, which left Apia, September 9, was the first transport carrying away Chinese laborers from Western Samoa, formerly German territory, by orders of the British government. The Chang Sha took 231 coolies and another transport similarly loaded will leave for Chinese ports it was said near the end of December. The liquidation of the German trading stations in Western Samoa has practically been completed. All stocks have been sold and British firms are extending their business to take the place of the interests formerly controlled by the interned Germans.

Women On Tour For Hughes Are Now In Toledo

(ASSOCIATED PRESS TELEGRAM) Toledo, Oct. 4.—Thirteen public meetings, an automobile parade, a luncheon at a fashionable club and a public reception comprise the program today for the 40 women who arrived at 7:15 o'clock this morning on a special train of the Hughes boosters on a transcontinental trip. The train came from Cleveland and will depart at 4 o'clock for Detroit.

A large committee of women met the visitors at the station. The automobile parade at 9:30 p. m. was the first event. Six street corner meetings were held at 10:30. Among the speakers at a noon mass meeting in a theatre were Mrs. Raymond Robbins, Mary Antin, Dr. Katherine Davis and Mrs. Nelson O'Shaughnessy. During the noon hour there were speeches at large factories.

Federal Reserve Clearings Nearly 20 Millions More

Washington, Oct. 4.—All federal reserve districts registered materially larger clearings for the month ending Sept. 16 last, than during the preceding month, the federal reserve board announced today. This increase was from \$59,301,695 to \$78,559,703.

During the same period, the total of banks from which federal banks are collecting at par increased from 11,656 to 15,067 and state banks increased 417.

KENNEDY COMES OUT FOR WILSON

Youngstown, O., Oct. 4.—Former Congressman James Kennedy of this city, a lifelong Republican and for four successive terms elected to Congress by Republicans of this district, has announced that he will support President Woodrow Wilson for re-election. Kennedy was a successor of the late President William McKinley in Congress.

NEW COMMANDER OF FRENCH FORCES IN SOMME OFFENSIVE

General Fayolle.

General Fayolle is in direct command of the French forces pursuing the Somme offensive. He has been mentioned prominently in the dispatches and is rapidly developing into one of the ablest of the French generals.

TWO PROBES START AFTER COLLAPSE OF CLEVELAND BRIDGE

(ASSOCIATED PRESS TELEGRAM) Cleveland, Oct. 4.—The death list in last night's bridge tragedy in which two street cars plunged thirty feet from the West Third street viaduct to the Baltimore and Ohio tracks remained at two today, but of the sixty injured it was expected one or two would die.

Two investigations were under way into the disaster today, one in charge of city officials to learn whether the bridge had been unsafe and the other by the Cleveland Railway company to determine whether the city could be saddled with the damage suits which will grow out of the accident.

The bodies of the dead, conductor Otto Borchert and Mrs. Clara Dille, a passenger, were still at morgues today.

All traffic is at a standstill over the wrecked bridge and street cars were re-routed while the B. & O. railroad was working to clear up its tracks and permit resumption of train operation.

RED CROSS SHIP BLOWN UP SUNDAY IN DOVER STRAITS

(ASSOCIATED PRESS TELEGRAM) Paris, Oct. 4.—A British Red Cross steamer blew up on Sunday morning in the Straits of Dover, according to a Boulogne dispatch to The Figaro.

The dispatch says news of the disaster was received by wireless but that details are lacking.

GUARD OFFICERS IN RIDING CONTEST ALONG THE BORDER.

(ASSOCIATED PRESS TELEGRAM) Douglas, Ariz., Oct. 4.—An officer endurance riding contest will start from here tomorrow. There are eight entries up to this time and many more are expected before the test begins.

The ride will be made entirely at night. The riders will draw for position and leave the headquarters of the New Jersey cavalry at ten minutes intervals. Just before leaving each rider will be given a sealed envelope containing instructions as to checking stations, route, conditions and destination. The route will cover from 50 to 80 miles. Each rider will decide for himself how he will cover the distance, including rests for his horse, feeding and watering. The best time on the route, the condition of the horse and rider on the completion of the test as well as on the following day will govern the ratings.

HELD FOR MURDER.

(ASSOCIATED PRESS TELEGRAM) Lorain, O., Oct. 4.—Nick Scoschetti, 25, was arrested here today charged with the first degree murder of Mrs. Huffman, who was found in her home with her throat cut, last week.

FILM

Row Carried Into Supreme Court Today by Attorney General Turner

POLITICS ARE INVOLVED

Turner Tells Court "Certain Persons" Try to Put Others in a Hole—Yaple Told to Come Into Court if He Has Anything to Say On Picture Play, "Birth of a Nation"

(ASSOCIATED PRESS TELEGRAM) Columbus, Oct. 4.—The supreme court today heard arguments in cases involving the constitutionality of the Ohio Chattel Loan law and the case of Epoch Producing company against the board of moving picture censors involving the right to show "The Birth of a Nation" film in Ohio. Both cases have been the subject of much political discussion in Ohio. Herman Wessel, chattel loan agent of Cincinnati is testing the chattel loan law. He was represented in court by Amos P. Foster of Cincinnati, O.

During the arguments on "The Birth of a Nation" film case, Chief Justice Hughes L. Nichols from the bench announced that Wallace Yaple, chairman of the state industrial commission, had called him up at his home over the telephone to tell him that a majority of the commission did not agree with Attorney General Turner, who is defending the moving picture censor board in seeking to bar the film from Ohio. Chief Justice Nichols stated he told Yaple that if he had anything to say to present it in open court. The moving picture board is under the direction of the industrial commission.

Joseph Heintzman, Cincinnati attorney representing the film company told the court that he had been informed Governor Willis had requested the film censors to reject the film before it was viewed by them. This was denied by G. V. Williams, chief state censor.

"There has been a lot of politics injected into this case," Attorney General Turner told the court, but he generated the film producers from the charge. "It is simply an attempt of certain persons to put somebody in a hole."

From questions asked the attorneys, members of the supreme court intimated that they might want to see the film in motion before passing upon the case.

COLONEL ON THE STAFF OF GOVERNOR BUSHNELL DIES IN NEW ENGLAND.

Greenwich, Conn., Oct. 4.—Colonel Robert C. McKinney, 64 years old, chairman of the board of directors of the NilesBement-Pond Co., tool manufacturers of New York, died at his home here last night. Colonel McKinney was a native of Troy, N. Y., and organized the tool manufacturing concern at Hamilton, Ohio, more than 40 years ago, subsequently becoming its president. He was a colonel on the staff of Governor Bushnell of Ohio; president of the Machinists Club of New York, and member of many of the leading clubs in that city.

COLONEL T. R. A CANDIDATE IN YEAR 1920?

Columbus, Oct. 4.—Next in importance to the interested politicians to the pronouncement of the executive officials of the German-American Alliance for Hughes for president and Herrick for senator is the attitude assumed by the various speakers at the secret session toward Theodore Roosevelt. The former president is almost as fervently hated by the pro-Germans in this country as Woodrow Wilson because of his outspoken denunciation of the action of the kaiser and the war party in bringing on the present war, and his demand for physical action against Germany.

The fact that he is supporting Hughes for president and opposing Wilson has created a difficult situation of the leaders of the alliance, not only in Ohio, but in the rest of the country. It rather startled the politicians of all parties when it became known that Carl Raid, of Cleveland, connected with a German newspaper, had declared Roosevelt was playing a traitorous double part in the campaign, and that his speeches were being made for the purpose, not of assisting Hughes' election, but to insure his defeat.

Unhappy delegates were assured that the former president was not speaking under the auspices of the Republican national committee, but under his own, and that his outgivings were not binding upon Judge Hughes. On the contrary, it was asserted, his real purpose is to re-elect Wilson in order that he may himself be re-elected in 1920.

AMERICAN WOMAN CORRESPONDENT PICKS FLOWERS FROM FIRST-LINE TRENCHES

Mrs. Adams and a French soldier in a first-line trench.

Mrs. Harriet Chalmers Adams of Washington, D. C., well-known magazine correspondent and lecturer, is the only woman correspondent who has been permitted to visit the French first-line trenches. The accompanying photograph shows her in the firing zone wearing a bouquet which she gathered from the sides of the trench. She will return to the United States in November to lecture for the benefit of wounded French soldiers. Her experiences so far include hiding in a deep dugout for eight hours while German shells screamed overhead.

PRESIDENT

GREETED BY CHEERING CROWDS ON TRIP TO OMAHA WHERE HE WILL SPEAK

(ASSOCIATED PRESS TELEGRAM) Alliance, O., Oct. 4.—President Wilson was enthusiastically greeted by cheering crowds as he passed through the middle west enroute to Omaha today. At Salem and Alliance, several thousand persons packed the railroad stations and applauded as Mr. Wilson stepped to the rear platform of his private car.

"We are for you, Woodrow," shouted one group at Salem. The president smiled broadly and expressed pleasure over the reception. At Salem the stop was so brief that Mr. Wilson could not even shake hands, but at Alliance a stay of more than five minutes was made and the president was kept busy all that time greeting as many people as possible. Although he would not consent to make any campaign speeches enroute to Omaha, the president agreed to appear on the rear platform of his car at several towns in Ohio and Indiana and shake hands with the crowds.

When the president awoke this morning he found several hundred telegrams along his route urging him to at least show himself. He was told he was very popular in Ohio and Indiana and the people wanted to see him. He was informed that if he would only consent to speak in several places for a few minutes large crowds could be gathered easily. He reiterated that he would make no speeches before reaching Omaha.

BROWNSVILLE MAN RUN DOWN BY AUTO WOMAN WAS DRIVING.

(ASSOCIATED PRESS TELEGRAM) Zanesville, Oct. 4.—A E. McMaster, driver of the Brownsville auto, was painfully injured at 4 o'clock Tuesday afternoon when he was run down at Fourth and Main streets by an automobile driven by Mrs. H. C. Millan.

Mr. McMaster was cut and bruised about the face, received cuts on both hands and arms, on the back of the head and received a deep gash over the left eye. Mrs. Millan explained that in turning a corner a woman got in the way of the machine and in making a broad turn she struck Mr. McMaster who was standing beside his machine.

DRIVE TEUTONS BACK TO FOURTH LINE IN BAPAUME VICINITY

British Official Statement Gives Summary of Three Months' Offensive in Somme Sector.

(ASSOCIATED PRESS TELEGRAM) London, Oct. 4.—An official statement issued here today gives details of the fighting on the Somme front after the advance of September 15, describing the character of victories, including Cambes, Guedecourt and Thiepval, and proceeds:

"These victories brought our front line at more than one point within a mile of the German fourth position west of the Bapaume-Transloy road."

The statement continues:

"The enemy has fought stubbornly to check our advance and since September 15 seven new divisions have been brought against us and five against the French. The severe and prolonged struggle demanded on the part of our troops very great determination and courage."

"At the end of September the situation was as follows: (Continued on Page 2, Col. 5.)"

MCGRAW'S WORDS WILL BE IGNORED BY COMMISSION

(ASSOCIATED PRESS TELEGRAM) New York, Oct. 4.—The National commission will take no action on the statement made by Manager McGraw of the New York Giants, that his team played listless ball in the game yesterday when Brooklyn easily defeated the Giants and captured the National league championship.

McGraw was undoubtedly wrought up over the fact that his team could not keep on winning," said President Tener. "I do not doubt that McGraw said harsh things but every friend of baseball will realize the fiery temper of the man who said them."

"I'm through for the year," were McGraw's words at the conclusion of yesterday's game. Those who heard it say he did not accuse his players of dishonesty but that they disregarded his signals.

Manager Robinson said "It is ridiculous to even suggest that the Giants did not try to win."

Pitcher Perritt whose action in "winding up" with a man on first increased McGraw's, said: "If the implication is made that I helped to lose the game give it the lie for me. That game cost me \$100 which I had wagered that I would win 20 games. I was out to win."

The Brooklyn team will take it easy in their next two games with the Giants in order to rest up for the opening (Continued on Page 7, Col. 3.)

Movement in Dobrudja Province Still Shrouded in Mystery As Various Reports Evade Main Issue—Russian Successes in Galicia Reported By Petrograd

(ASSOCIATED PRESS TELEGRAM) London, Oct. 4.—The French on the Somme front are continuing their thrust northward on the Peronne-Bapaume road and have captured a strong line of German defense between Morval and the St. Pierre Vaast Wood, Paris announces today. The British after stubborn fighting, have managed to expel the Germans from the town of Eaucourt l'Abbaye, near the Pozieres-Bapaume road where their drive towards Bapaume is now within three and one-half miles of its objective, London today reports Eaucourt l'Abbaye entirely in British possession.

Mystery still surrounds the numbers and movements of the Rumanian forces which have crossed the Danube into Bulgaria near Rahovo in an evident effort to outflank the Bulgarian left wing and compel the retreat of Field Marshal Von Mackensen from the line south of the Constanta-Tchernavoda front.

Sofia in its current announcement mentions these forces as comprising considerable units, but records no contact between them and their Bulgarian foe.

Berlin's assertion that the pontoon bridge on which the Rumanians crossed was destroyed is supplemented by Sofia's statement that the bridge was put out of commission at the Dobrudja side by Austrian monitors. What dispositions the Rumanians are making to keep up the communications of this force are not known. Bucharest has not alluded to the movement in its official statement.

Today's statement from Petrograd records no additional progress to the Russian in Volhynia or Galicia but admits of the fighting in Galicia that the Austro-German forces are holding their ground.

Regarding the campaign in Dobrudja the Russian war office announces the offensive against field Marshal Von Mackensen's left flank which should be bombarded by Russian gunboats on the Danube near Rachova, 14 miles south of Tchernavoda. London's account of the operation in Macedonia northeast of Salonik declares the British have advanced (Continued on Page 2, Col. 4.)

U-BOATS SINK 35 ENEMY SHIPS IN NINE DAYS

(ASSOCIATED PRESS TELEGRAM) Berlin, Oct. 4.—(By wireless to Sayville.)—Thirty-five vessels of countries at war with Germany with a total tonnage of 14,600, were sunk by German submarines in the North Sea or the English Channel between Sept. 20 and Sept. 29, the Overseas News Agency announces. This is in addition to 11 British fishing steamers and four Belgian lighters whose sinking already has been reported. Twenty-seven of the thirty-five were fishing steamers. Thirty-one prisoners were brought in by the submarines.

American Help Sought In Effort to Raise Millions

Washington, Oct. 4.—An active campaign to solicit \$5,000,000 for relief of about 1,000,000 Armenian and Syrian war victims was under way today, directed by the American Committee for Armenian and Syrian Relief. A statement issued by the committee declared nearly three-quarters of a million Armenians, or nearly one-half of the number in their native country at the beginning of the war, have been massacred by Turks or died of hunger or disease.

The committee urged special efforts for collection of funds on October 21 and 22, designated by President Wilson as special Armenian and Turkish relief day.

The Turkish government already has given consent for distribution of relief among Syrians, and authority has been secured for passage of supply trade with the allied blockade. The state department hopes to obtain an extension of these privileges to Armenia.

Safety Director Declares Desire of Council Members to Occupy Mayor's Chair is Cause of All of "Plays to Gallery"—Quotes Figures From Auditor's Office

In refuting the charges of incapacity and incompetency made against him at Monday night's meeting of the city council, by Councilman Knauber, Director of Public Safety, Cecil Bigbee, today, secured figures from City Auditor Dodd, showing a comparison of expenditures in the safety department for the first eight months of 1915 and 1916.

According to the figures secured from Auditor Dodd, the expenditures in the safety department under Bigbee's regime, have been \$5,045.86 less than when the department was in charge of former director Carl Dayton.

"About \$1800 of this amount was saved by council's ordinance reducing the police force," Director Bigbee said today. "But the balance has been saved through my efforts to get value received for every dollar spent. I have endeavored to operate this department within the limits of the amount of money appropriated by council, and if I have failed, council is as much to blame for the shortage of money, as I am for inefficiency."

Director Bigbee said that despite the fact that council had cut down the police department five patrolmen, he was getting as much efficiency out of the reduced force, as he did with the old number. This is due he said to a higher plane of efficiency existing in the department than heretofore.

"Regarding the expenditure of the \$22,000, allowed the safety department from the July tax collection the director said, 'council can, if it chooses, explain just where the money' (Continued from Page 1)

BORDER CONTROL PLAN DISCUSSED BY COMMISSION

(ASSOCIATED PRESS TELEGRAM) Atlantic City, N. J., Oct. 4.—Further consideration by the Mexican-American joint commission was given today to the plan of border control proposed by the Mexican members. It was regarded as probable that General Tasker H. Bliss, assistant chief of staff of the United States army, would appear before the American commission in an advisory capacity. That the plan which involves the withdrawal of General Pershing's forces would be adopted prior to a definite understanding regarding General Carranza's attitude respecting the reopening of mines and other industries was regarded as improbable.

When Pork Drops Price of Hotel Meals is Boosted

(ASSOCIATED PRESS TELEGRAM) Pittsburgh, Oct. 4.—The first important break for more than a year in the steadily rising market for meat in the Pittsburgh district was forecasted today when hogs were quoted at Herr's island stock yards 70 cents per hundred lower than yesterday, with the highest price at \$9.50. Heavy receipts and a falling off in demand were given by brokers as the cause of the slump.

Any saving which might be effected from this cause, however, was balanced by the announcement of hotel managers that 70 cents would be added to all checks for meals to cover the cost of bread and butter. One manager declared these items cost him approximately \$100 a day and he could not afford it. The rule becomes operative next Monday.

DOG ATKS THREE MINES ANIMAL RABIES SYMPTOMS.

(ASSOCIATED PRESS TELEGRAM) Zanesville, O., Oct. 4.—The head of the dog belonging to Frank George of Nashport was sent to Columbus for analysis for symptoms of rabies. The dog attacked three people, Roy Redman, aged 4, son of Ross Redman on the street last Sunday, biting him on the leg. On Monday the dog bit his brother, Joseph Redman, 6, biting him on the arm. On Tuesday when Miss Nellie Ewan was leaving the George premises she was bitten on the hand. The animal was then shot.

BROTHER SAVES CHILD AS FIRE IGNITES CLOTHES

The condition of Richard Kellenberger the 2-year-old son of Mr. and Mrs. Charles W. Kellenberger, 118 Hudson avenue, who was burned on Sunday, remains about the same.

It was due to the presence of mind of the baby's brother, Hunter Kellenberger aged 12, that the child was not more seriously injured. He reached the baby before Mrs. Kellenberger did, and beat out the flames. The child's dress caught fire from a stove and the right arm and leg were badly burned. Dr. W. J. Kennedy was called to dress the injuries.

ey has gone and why the safety department is on the verge of being broke, as stated by Councilman Knauber.

The director intimated that if council would take as much interest in enacting legislation favorable to the workings of the administration, instead of its continual "heckling" and "grandstanding" before a lobby of citizens against the administration, the result would be a better city government.

"Harmony, would also act as an incentive for the men in the various departments to work for a higher standard of efficiency, the director said, "but with council constantly in discord with the administration, progressive legislation suffers."

The director blamed the buzzing of the "Mayoralty bee" among certain Republican members of the council for the avalanche of criticism heaped against the present administration.

Chief of Police Sheridan today made a denial to the statement made by Council Knauber, that the Chief himself admitted that inefficiency prevailed in the police department.

"What I did say," the Chief said, "was that the police and fire departments would be increased in efficiency, with the installation of the Flash Light signal system, 90 per cent."

Director Bigbee said the reason that the plans and specifications for the new system were not in the hands of council, was because after he had prepared the same as authorized, a special committee appointed by council, changed the location of the boxes. He said the committee could not agree on the kind of system they wanted, whether it would be combination fire, or straight police, and until they do, plans and specifications cannot be drawn.

"When a bunch of councilmen, unfamiliar with police work, try to show the Chief of Police where boxes should be placed," the director said, "it is time the matter was dropped."

According to Chief Sheridan, the committee wanted police boxes placed, where it would require patrolmen to walk on stilts to reach them in bad weather.

"I told the committee where the boxes should be placed to the best advantage," the Chief said, "and this information was gained by me through my experience at the head of the department."

The figures compiled by Auditor Dodd, showing the comparison of the first eight months of Director Dayton's term in 1915 and the same period in Director Bigbee's term in 1916 are as follows:

	1915	1916
Gen Adms. \$	670.40	469.02
Police	17,756.57	14,432.38
Fire	17,752.22	16,809.61
Fire and Police Telephone and Telegraph ..	405.18	411.85
Disabled Fire & Police ..	147.89	27.42
Fire Hydrant Upkeep ..	526.91	71.03
Contingent \$628.29 for bills that were carried over from Dayton's Eight months of 1915 Dayton spent all told \$37,771.03.		
Eight months of 1916 Bigbee spent all told \$32,851.60.		
Deducting the \$628.29 paid for Dayton's bills, Bigbee's expenditure for this year to date would be \$22,223.31 spent in eight months, against \$27,269.17.

WILL OPEN NEW FISH CAR SATURDAY FOR INSPECTION

The new state fish car built by the Jewett Car Company of this city has been completed and will be moved from the plant Saturday morning to the B. & O. station, where it will be stationed for public inspection.

The car is pronounced by experts to be one of the finest ever turned out in the country. It is 72 feet in length, all steel and of M. C. B. construction. It has been accepted by Acting State Game Warden C. A. Baxter and will be taken to Sandusky Saturday afternoon where it will be loaded with fish from the hatcheries at Put-In-Bay.

BE PRETTY! TURN GRAY HAIR DARK

Look young! Nobody can tell if you use Grandmother's simple recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

On their part the Bulgarians apparently are either engaged in frustrating another Rumanian movement to cross the Danube or are attempting an operation of this sort on their own account. They report the occupation by their troops of the island of Makafalafat opposite Vidin, in the extreme Northwestern part of Bulgarian territory of Rumanian forces on the other side of the river.

Reports from Sofia indicate at least a momentary lessening of the intense pressure on the Macedonian front. The artillery continues active, notably along the western end of the line, but the only heavy fighting has been in the Struma region where the British are engaged near Karadjak, east of the Struma, northwest of Lake Tashin.

Unofficial dispatches from Petrograd report a Russian success in the drive for Lemberg. The Russians have captured the heights south of Brazeny 10 miles Southeast of Lemberg. Official reports from Berlin and Vienna have asserted that the Russian attempts to carry and hold these heights failed.

Bakers Declare Profits Are Less The Prices Higher

A meeting of the Ohio Association of Master Bakers was called in Columbus Tuesday for the purpose of getting all bakers together, irrespective of their affiliations to talk over the flour and bread situation.

At the meeting John M. Mote, assistant chief inspector of the state bureau of weights and measures, stated that the state of Ohio has been making an investigation of the flour and bread situation since last June and that it has found that while costs have increased 70 per cent in the past year the price to the consumer of bread has increased but 27 per cent showing that the baker is making 13 per cent less on his bread than formerly.

Today the association expected to pass resolutions favoring an embargo on flour and a ten-cent loaf of bread.

CONCESSION MAN BROUGHT BACK FOR HOTEL BILL

E. B. Sterchl, who with two women operated a ring rack at the county fair last week, was arrested at Logan, O., yesterday by Constable Chas. Moore of justice Fletcher S. Scott's court, on the charge of jumping a board bill at the Warden hotel. Warrants were also issued for the women but they could not be located. The affidavits were subscribed to by J. W. Lynch, manager for Rowe & Curran.

Sterchl was found on the Logan county fair grounds operating a ring rack but the women were not with him. He left a hotel bill unpaid amounting to \$17.50. It is also charged that he registered for the women each of whom owe \$20.25, the total amount being \$58. He was unable to raise the amount and was brought to this city and lodged in the county jail. His hearing will be held later.

Justice Jones' Court.

The charge against Bert Claggett in Justice D. M. Jones' court preferred by Theodore Snyder, a farmer of near Stadden's bridge, could not be substantiated and Claggett was dismissed. It is said that his attorneys will file a damage suit. Claggett was charged with entering the Snyder home and taking a gold watch and ring.

Verdict for \$633.

A jury in probate court awarded Ezra O. Mitchell \$633, the verdict reading "compensation for land taken, \$140; as damages to residue of tract, \$493." The case was appealed from the findings of the county commissioners who had awarded Mr. Mitchell \$500 for land for a new road near Homer, O.

Common Pleas Notes.

In common pleas court the court and a jury were engaged on Wednesday in the trial of the case of David H. Moore vs. Louise M. Moore. Plaintiff asks to recover a judgment for the sum of \$158 and interest, which he says he paid for the use of defendant, at her request, in the settlement of a real estate transaction.

Lillian Williams vs. Quincy P. Williams, a suit for divorce: Judgment of dismissal for want of prosecution.

Clorinda Angeletti vs. Guido Angeletti, continued off the docket. An injunction suit.

George Barcus vs. State of Ohio, judgment of dismissal.

B. G. Smythe vs. J. F. Lingafelter, a suit for attorney fees, for trial to Judge Fulton Wednesday afternoon.

BRITISH

(Continued from Page 1.)

uation may be summarized as follows:

"Since the opening of the battle on July 1, we have taken 26,735 prisoners, and engaged 38 German divisions, of which 29 (about 350,000 men) have been withdrawn, exhausted or broken. We hold the half moon of land south of the Ancre occupy every height of importance, and so have direct observation ground to the east and northeast. The enemy has fallen back upon a fourth line behind a low ridge just west of the Bapaume-Transloy road.

"The importance of the three months' offensive is not to be judged by the distance advanced or the number of enemy trench lines taken. It must be looked for in the effect upon enemy's strength in numbers, material and morale. The enemy has used up his reserves in repeated, costly and unsuccessful counter attacks without causing our allies or ourselves to relax our steady, methodical pressure.

"In this action troops from every part of the British empire and British islands have been engaged. All behaved with the discipline and resolution of veterans. Our aircraft have shown in the highest degree the spirit of the offensive. They have patrolled regularly far behind the enemy's lines and have fought many battles in the air with hostile machines and many with enemy troops on the ground. For every enemy machine that succeeds in crossing our front it is safe to say two hundred British machines cross the enemy's front."

FOUR WEEKS IN HOSPITAL

Mrs. Brown Finally Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Cleveland, Ohio.—"For years I suffered so sometimes it seemed as though I could not stand it any longer. It was all in my lower organs. At times I could hardly walk, for if I stepped on a little stone I would almost faint. One day I did faint and my husband was sent for and the doctor came. I was taken to the hospital and stayed four weeks but when I came home I would faint just the same and had the same pains.

A friend who is a nurse said for me to try Lydia E. Pinkham's Vegetable Compound. I began taking it that very day for I was suffering a great deal. It has already done me more good than the hospital. To anyone who is suffering as I was my advice is to stop in the first drug-store and get a bottle of Lydia E. Pinkham's Vegetable Compound before you go home."—Mrs. W. C. A Helpful Confession

Mrs. B. writes:—"Had suffered for years with stomach disorder. Could not eat without great distress, lost weight and was run down. Feared it was ulcerated stomach.

"Fortunately I secured a sample of HEMO, which seemed to satisfy my hunger, and was retained without distress and started to take it regularly. I continued to take it once a day and improved steadily. After one year I have gained 33 pounds of good solid flesh and can eat any food with no distress. I can recommend HEMO to all sufferers from stomach or digestive disorders."

Makes a delicious food drink by simply adding water.

The Auditorium.

When A. H. Van Buren, who acts in William Fox's "Her Double Life," with Theda Bara, was in stock in Baltimore, people looked on him as the eighth wonder of the world. A Baltimore reviewer described Mr. Van Buren thus: "He is one of those men to whom it is eminently fitting to apply the term 'bull man,' for, speaking from the physical point of view, he is one of the most magnificent specimens of human creature one could imagine—tall, strong of limb, broad of shoulder and deep of lung. When he stands erect and throws back his head one is unconsciously reminded of the leader of some forest herd—or perhaps, of the horn man of a hunting band in a classic age. What a blast he could blow on a horn."

LOCAL HUNTER LOST IN WOODS FOR SOME TIME

The story leaked out today that Attorney Ray Martin of the Trust building was lost in a big woods for several hours yesterday while squirrel hunting, and that if it had not been for his companion, J. P. Murphy, West Main street grocer, he might have been in the woods yet the victim of hoot owls, tree bugs and swamp snakes.

Mr. Martin, while not exactly a novice as a huntsman, acknowledges that he is as a woodsman. He started bright and early yesterday with Mr. Murphy, and after more or less success in several pieces of timber, arrived at the Big Woods, ten miles northwest of this city. Before entering Mr. Murphy cautioned him to look well at the sun and keep it on his back and they would then separate and meet on the other side.

Mr. Martin it is said shot a squirrel and when it lodged in a tree the sportsman remembered that he was the acknowledged tree climber in the days of the old frame school house on the hill and he shinned up after his game. That was his undoing for he lost his bearings and after tramping for several hours and shouting himself hoarse, realized that unless something unforeseen would happen that he would be forced to remain in the dark, gloomy woods over night, perhaps for several days. All he had to eat was a sandwich in his hunting jacket and the squirrel which he had shot a few hours before. He resolved to try once more and tearing some papers into bits began leaving them as a trail in an endeavor to find out if he was crossing his own tracks. In the course of an hour he returned to where he had started and then realized that he was lost for good.

Sitting down on a log he was about to give way to gloom and despair when he heard a faint "hello!" coming through the woods. He answered and it was returned and in the course of a short time Mr. Murphy came into view. The hero of the woods almost fell upon his neck as he grasped his hand and worked it like a pump handle for several minutes. He vows that hereafter when he enters a wood to squirrel hunting he will take along a compass, a good hunting dog and a guide, and then he knows that he will be sure to find his way out.

Ralph Brannard, Tenor with "Robin Hood," Auditorium, Thursday, Oct. 5

at the Auditorium, Thursday, Oct. 5, with a cast of grand and tight opera singers, has enjoyed distinctions that seldom fall to the lot of a work of this kind.

In the first instance it was the vehicle that made the Bostonians famous. In the second instance "Robin Hood" has probably been the opening attraction at more new theatres than any other piece in the history of music or drama. The Bostonians had a standing order with the booking powers to give them first chance at the new theatres and the local manager was always glad to have them, as it assured a packed house, and a social send-off.

The third distinction that fell to the opera and its composed was that it was the first American work to be performed in London where it attained a degree of success, the Englishmen being interested in the legend of this famous outlaw.

The crowning glory, however, and a distinction that has fallen to no other American composer of light opera, was an invitation to play "Robin Hood" in the open air at the Greek Theatre of the University of California, which performance was given last March. A packed auditorium, and that means more than 5,000 persons, enjoyed the beautiful airs and brilliant costumes, which lost none of their lustre in the sunshine.

After the show an old lady came behind the scenes and asked to meet Miss Scott, as she had something important to tell her. It seems she was sitting on the topmost tier against the trees, and when Miss Scott sang her flute-like notes in the Forest Song, the birds in the tree each cadenza, the birds in the tree answered her. Miss Scott was more pleased with this than anything that happened to her, although Camille de Arville, a famous Marlon in her day, threw her words to her and afterwards congratulated her on her success.

Seats are now selling.
Patrons may always feel a surety of a good rollicking show when Kerk-Kelly's "C. Hart Girls" are announced. This attraction will be at the Auditorium Monday with the matinee. "The Cabaret Girls" is full of real comedy situations and snappy, tuneful song hits. The scenery and

Committee for the Elk Minstrel Named By Lodge

The first meeting of the fall and winter sessions of the Elk lodge was held last evening. More than a hundred of the members being present. Plans were discussed relative to other meetings during the season but no definite action was taken. The election of a Loyal Knight to succeed Paul Morrison, who is absent from the city, went over to another meeting.

Exalted Ruler Daugherty announced that he had selected the minstrel committee for this year and would appoint Harry D. Hale as chairman with Jas. R. Cooper and Homer "Rube" Jones. The selection met with the approval of all present and the committee was instructed to spare no expense in making the sixth annual minstrel the best ever given by the Elk organization.

A social session followed. Jackson's orchestra furnishing the music. Vocal selection were rendered by different members and a pleasing luncheon was furnished by the club steward, Col. Billy Hohl. All present had a most delightful time and Exalted Ruler Daugherty announced that there would be many more such affairs during the winter.

Songs from the Heart of Merry Old Ireland

THE Land of the Shamrock has produced and inspired some of the best-loved "songs of the heart" that have sung their way into our affections.

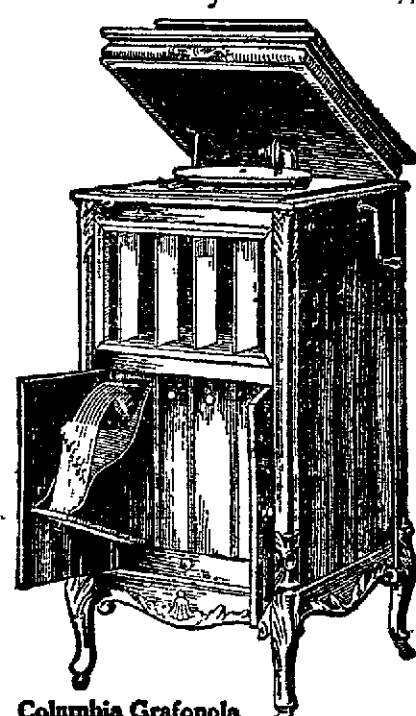

Chauncey Olcott, among other famous artists, has made some Columbia Double-Disc Records that will touch the very heart-strings of every son of the Emerald Isle. These records by Olcott and others are particularly fine examples:

- A 1310 10-inch 75c I LOVE THE NAME OF MARY. Chauncey Olcott, Tenor.
- WHEN IRISH EYES ARE SMILING. Chauncey Olcott, Tenor.
- A 1857 10-inch 75c MACUSHLA. Hardy Williamson, Tenor.
- MOTHERMACHREE. Hardy Williamson, Tenor.
- A 1916 10-inch 75c WHERE THE RIVER SHANNON FLOWS. Broadway Quartette.
- A LITTLE BIT OF HEAVEN. Broadway Quartette.

Whether or not you were born in Ireland, these records will have a message for you: a message of beauty and warmth and perfection, in tone, recording and reproduction.

Look for the "double music-note" trade-mark — you will know from these records what it means in music.

IF KIDNEYS AND BLADDER BOTHER

Take a glass of Salts to flush out your Kidneys, and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever. Here you have a pleasant, effervescent, lithia-water drink which quickly relieves bladder trouble.

ESTABLISHED IN 1820

Entered as Second Class Matter
March 10, 1882, at the postoffice at
Newark, Ohio, under the Act of March
4, 1879.

It is never a good plan to swap horses while crossing a stream of water.—Abraham Lincoln.

Dr. W. L. Jackson.

It is seldom that a man's record in office, and his personal popularity are such that when he seeks a re-election the opposing party does not see fit to put up a candidate against him, but this was the case with Dr. W. L. Jackson. Democratic candidate for coroner of Licking county.

Dr. Jackson has filled nearly every term as coroner, and has been very faithful and efficient. He has brought to the office the qualities of good common sense, and professional ability of a high order.

He was graduated from the Ohio Medical University, now connected with Ohio State, and for many years has practiced in Licking county most of the time in Jacksonstown and Newark.

Dr. Jackson is a man of affable manner, and a thorough-going official who has given to the public the same careful and intelligent endeavor that he exercises in his private practice.

Having no opposition it is of course a foregone conclusion that he will be re-elected, and it is certain that during his second term he will make just as good a record as he made the first.

Life Insurance.

The interests and future of life insurance work were discussed at the convention held at Boston a short time ago of the National Association of Insurance Agents. The opinion was confidently expressed that the life insurance business as now organized has nothing to fear from the competition of state insurance.

Efforts have been made in some states through banks and other agencies to establish what is called "lover the counter" insurance. If every one needing insurance would walk up to an office and take it out without solicitation, there would be a big economy. But like other ideas that omit advertising, it won't work universally while human nature remains as it is.

A common view of insurance was expressed by the man who said "I don't think much of an investment where I have to die to get my money."

There are a great many men having good incomes who have made no effort to secure protection for their families in case of death. They think in a happy-go-lucky way that their life and health will endure indefinitely. This type of man would never walk up to a state or bank insurance office and ask for a policy. If he ever takes one out, it will be due to the persuasive powers of some agent.

So it is likely, as the speakers referred to thought, that the life insurance man will live long and flourish. He is a bit over-persistent, and may talk a little too long. He is certainly "Johnny on the spot" and if

Every Voter In Ohio Must Register This Month; First Chance Is Tomorrow

Ohio voters are required to register once every four years and more often if they change their place of residence. General registration comes in presidential years. This means that every voter in this state must register anew this month in order to vote on November 7.

Tomorrow, Oct. 5th will be the first registration day and the hours of registration are from 8 to 2 and from 4 to 9 in the evening.

It matters not even if you registered for the August primary. This year, you must register again if you want to vote next month. This applies to every voter in Ohio. Remember it, tell it to your neighbors and resolve right now to go to the polls either tomorrow morning after 8 o'clock or tomorrow evening between 4 and 9 o'clock and get your name on the registration books. It is true there will be a later chance but don't put it off for you may be away next time. Do it now. Register tomorrow.

Arbitration.

Charles Evans Hughes, lacking other arguments, asserts his devotion to the principle of arbitration. The Republican party, though, is not with him in this assertion. In 1896, following the catastrophe strike of the American Railway Union in 1894 which Grover Cleveland broke up by the use of the regular army, the party after nominating McKinley, adopted a plank at St. Louis in which it declared for the formation of a national arbitration board to "settle and adjust the differences between employers and employees engaged in interstate commerce."

It was a bait designed to secure the support of the defeated railway workers, who believe that thereafter the Federal government could be depended upon to hold fairly the balance in industrial disputes. The pledge was never redeemed although the Republicans governed the country until 1912. President Wilson offered his services to bring about peace in the same spirit that President Roosevelt tendered his offices to Japan and Russia when those nations were at war—i. e. for the purpose of bringing about peace.

All American or Half Alien?

(New York World.)

The United States cannot exist half American and half alien. Nor can it exist if its elections are to be decided by organized groups of foreign sympathizers.

All other issues of the campaign are trivial and incidental as compared with this. When it is possible for a President of the United States to be menaced with defeat because his foreign policies displease Germany or any other foreign country, the American people are standing on the edge of a precipice, and the less they perceive their danger the greater that danger is.

President Wilson performed a high public service when he bluntly informed the agent of the so-called American Truth society that:

"I would feel deeply mortified to have you or anybody like you vote for me. Since you have access to many disloyal Americans and I have not, I will ask you to convey this message to them."

The American Truth society is an arm of the German propaganda and is employed to influence Irish opinion on the side of Germany. Like the German-American Alliance it has been violent against the United States Government in every diplomatic controversy with the German Empire since the war began.

To describe it as "disloyal" is to speak moderately and conservatively; yet it is one of the active agencies by which the Republican campaign managers hope to defeat President Wilson. It is one of the active agencies whose support Mr. Hughes invites and encourages.

The German drive against the President is the most sinister development of American political life since secession. In the earlier stage a pretense was made that this organized German opposition to the Administration was due the President's failure to protect American "rights." That mask was long ago dropped. The German leaders are now fighting the President as "an enemy of Germany" to use the language of the Illinois Staats Zeitung, which exults in the fact that Mr. Hughes' "People's speech" was intended for the benefit of citizens of German descent whom the Democratic yellow press has attempted to alarm.

Pomerene Indorsed.

A strong letter of indorsement for Senator Pomerene has been written by President Wilson from Shadow Lawn. The letter says:

"My dear Senator:—Now that you are in the midst of your campaign, may I not have the liberty of expressing my deep interest in its outcome? Your constant support throughout the sessions of the last two Congresses—your generous and thoughtful advice upon the many matters with which we have had to deal—and your thoroughgoing devotion to genuine Democratic principles—have bred in me something more than a respect for you. May I not say that they have made me feel a deep gratification at my intimate association with you in the efforts of all lovers of progressive government to set forward the cause of a free and impartial administration of the people's business?"

It is not expected that the consumption of cigars will be reduced by the higher prices, as it is always possible to buy cheaper food for the family.

It is not only a keen sense of duty that persuades the candidates to accept nominations for which they have long been intriguing.

America in China.

Pittsburgh Dispatch.)

Announcement of the closing of an agreement with the Chinese Government by which an American company will build 1,500 miles of railroad through the richest Provinces of Southern and Middle China, with an option of constructing as much more, at a total cost of \$120,000,000, to be financed by the new American International Corporation, surprises even the diplomats. It is not so long since China found itself unable to borrow \$30,000,000 from American bankers. The railroad contract, it is said, is to be secured by the property and not by any concessions or Government guarantees, the chief stipulation being that the American engineer who builds the road is to be chief engineer after its completion and the American auditors are to supervise the finances.

China now has but 6,000 miles of railroad, so that this operation will increase the mileage by 50 per cent. While the routes will penetrate what have been considered British and French spheres of influence, care is to be taken, it is said, not to conflict with any arrangements with those countries. It is beyond the zone of Japanese in-

Peace and Quiet.
The editor was dying, and a sign came from his breast:
"Please bury me, my friends, where I will find eternal rest.
I long for peace and quiet, so, when I have closed my eyes,
Just plant me in some store in which they do not advertise."

If this dead editor were put in this deserted place,

That he'd find a lot in common with this lifeless merchant, who

Danish West Indies.
The action of the Senate in ratifying the Danish West Indies purchase puts the United States in a good position to insist on the Monroe doctrine. When we say, as we do, that a European power holding possessions in the Western Hemisphere may not transfer those possessions to another European country, we must, in all fairness, be ready to buy the colonies ourselves if they are for sale. We have met this requirement, and even if the sale is blocked on the other side, we have earned the right to veto the disposal of these islands in any other fashion.—Chicago Journal.

Zanesville's Exhibit.
The industrial exhibit of the Rotary club, which opened under such auspicious circumstances at the Air-dome Monday night, has now become a fixed event in the city's fall calendar. Backed by a bunch of boosters the exhibit could not fail to be a success in every detail. The first one was, and the second one is even better than the first. It is an exposition of which Zanesville may well be proud and is entirely deserving of the support that has been accorded it.—Zanesville Times-Recorder.

Not Constructive.
The outstanding fact with regard to the Republican campaign thus far is the entire failure of candidate and leaders to outline a program of constructive action. They have apparently never heard that there is such a thing as an affirmative position in politics. They might say, with a certain famous and shady character, "I am the spirit that denies."—St. Louis Republic.

City Manager Proved.
There are now 40 municipal officials in the United States who are styled "city managers," under the new commission-manager form of government. They are the professional chief executives of their respective municipalities, each with administrative power over the city's entire administrative establishment. They are not popularly elected, but hired for reasons of fitness and for an indefinite tenure by a small election commission of five local men. Generally speaking, three years of trial in a variety of towns have proved that the new plan furnishes a battle-ground for democracy that makes the unmobilized citizens unusually effective while the opportunity for expert administration which it offers is usually grasped.—The New Republic.

Life Insurance.

The interests and future of life insurance work were discussed at the convention held at Boston a short time ago of the National Association of Insurance Agents. The opinion was confidently expressed that the life insurance business as now organized has nothing to fear from the competition of state insurance.

Efforts have been made in some states through banks and other agencies to establish what is called "lover the counter" insurance. If every one needing insurance would walk up to an office and take it out without solicitation, there would be a big economy. But like other ideas that omit advertising, it won't work universally while human nature remains as it is.

A common view of insurance was expressed by the man who said "I don't think much of an investment where I have to die to get my money."

There are a great many men having good incomes who have made no effort to secure protection for their families in case of death. They think in a happy-go-lucky way that their life and health will endure indefinitely. This type of man would never walk up to a state or bank insurance office and ask for a policy. If he ever takes one out, it will be due to the persuasive powers of some agent.

So it is likely, as the speakers referred to thought, that the life insurance man will live long and flourish. He is a bit over-persistent, and may talk a little too long. He is certainly "Johnny on the spot" and if

Granville

(Special to the Advocate.)

Granville, Ohio, October 4.—About fifty women attended the meeting of the A. F. F. W. which was held in the King's Daughters apartments in Linden flats Tuesday, October 2, beginning at 10 o'clock a. m. and lasting until 4:30 p. m. Only a few remained during the entire session, but worked at hours which suited their convenience.

Mrs. J. D. Thompson, chairman of the needlework committee, reports a most satisfactory day's work. Eighty of the comfort bags were made yesterday which brings the entire number up to 108. These bags must be in New York by the middle of this month if they are to reach the men in the hospitals for Christmas.

Measurements of the samples sent from the New York headquarters show that these bags are cut ten by fifteen inches, finished nine by twelve inches, leaving a wide hem at the top. One bag was brought in by Mrs. Anna Campbell, already filled by President Chamberlain's children. The comfort pillows should measure 14 inches square, finished. About thirty of these have been made. There must be more cotton waste for the clippings which go into these pillows. Mrs. Biggs, the chairman, reported over \$4 in cash handed to her.

The treasurer, Mrs. Ira Perry, being absent. At three o'clock there was a business meeting which did not stop the work.

Mrs. Fred McCollum, secretary, read two letters from the New York headquarters, one of which was forwarded from Paris. Mrs. Goodell read an intensely interesting letter from Mrs. Marion Bonsall Davis, sister of Mrs. C. E. Stanton, who is working at the Paris depot. It may interest those who have not as yet attended these meetings to learn the names of the women who are the head of this organization in New York: Mrs. Ethelbert Nevil, chairman; Miss Maude Wetmore, vice chairman; Mrs. Charles M. Chapin, second vice chairman; Miss Elizabeth Scarborough, secretary; Miss Anne Morgan, treasurer. The letter read by Mrs. McCollum expressed pleasure in welcoming the Granville committee; interest in hearing of the comfort bags to be shipped this month and some valuable suggestions as to the shipping. It assured this committee that everything which goes from here is sent to Paris as coming from the Granville committee, and that a letter will be sent not only from the New York organization advising us of the arrival of our boxes, and the name of the steamer by which they will be forwarded, but also an acknowledgment will be received here from the Paris depot. It concludes: "I do hope that your ambition will be realized, and that every man, woman and child in your village will assist in this great work. It seems to me that the person who has not done his or her little bit to relieve some of the suffering of the soldiers is to be pitied. Wishing all success, sincerely yours, Elizabeth Little Scarborough." The next meeting will be next Tuesday in the same place, at the same hours, 10 a. m. to 4:30 p. m. Everybody come!

The first meeting of the year of the Methodist Foreign Mission society, which was held Tuesday afternoon, Oct. 2, at the home of Mrs. William Russler, was a most enjoyable affair combining the functions of a religious, business and social gathering. The topic of the program, which was led by Mrs. Albert Avery, was "War and the Kingdom," most ably treated by her in a care-

Making Up Pale Eyebrows.

Some folks do not approve of make-up at all, and others admit that a little of it does not harm, while the majority will agree that it is a woman's birthright to be beautiful, and that if Nature overlooks her she may be excused when she resorts to false methods of obtaining it.

Nothing gives the face a more insipid expression than thin colorless eyebrows. By massaging the flesh lightly every night and with the faithful application of vaseline before retiring it has been proven that even the hopeless-looking pale eyebrows will take on a new growth.

It is slow patient work however, and it may mean several months of massaging and vaseline applications to produce the slightest degree of eyebrow interest. In the meantime the eyebrows remain pale and insipid.

The purchase of an eyebrow pencil which comes in all shades of brown and also black, is the only solution for the problem. When using the pencil be very careful not to apply it too heavily, and special care should be taken to follow the curve of the eye. The pencil itself is made of a harmless greasy substance and can do no injury to coming growth of the eyebrows.

Every Day Etiquette

"Should I ask a caller to remove her wraps when making a formal call? If so, what should I say? When should I say it, as soon as they are seated in the living room or while in the hall?" asked the young bride.

"In making a formal call, wraps are not removed. Formal calls last from fifteen to twenty minutes," answered her mother-in-law.

Happy Idea.

The railway board had met to consider the case of old Tom Jones, who in a train accident had become deaf. "Well," said the director, "old Tom has been with us a long time, and we want to find him a new job. What do you suggest?"

"I know," said the chairman. "Let's put him in charge of the complaints department."—Tit-Bits.

Our Boys and Girls

There is much of imagination in the life of every child and this should be fostered and acquired for use in later life. If it is possible to give up one room, an alcove or a corner, so that it can be transformed into an attractive and educative spot for the child. It is not so much a question of size as it is of a distinctive place. If possible it should contain a cabinet for toys. A box into which the child at the end of its play dumps all of its toys. Fosters only semblance of order.

Here are some "don'ts" for children that should be heeded by all mothers: Don't allow the children to read in a dim light. Don't let them read with the sunlight glaring on the book. Don't allow them to read at night facing the light. Don't allow them to read while lying down. Don't allow them to read for too long a period at a time.

Bond was to be arraigned before Mayor Bigbee this afternoon on two more charges, one of stealing a suitcase and sending it to Columbus and the other of carrying concealed weapons.

Wheat New \$1.50.
Local grain men are paying \$1.50 per bushel for wheat today. Farmers are hauling in wheat which they have held in storage for some time, it having been predicted that it would reach \$1.50 before the end of the year. One well known grain man stated today that the advance in price was due in a great measure to the interior milling demand for the grain and also for a great demand for sowing purposes.

Register tomorrow, 8 a. m. to 2 p. m. and from 4 to 9 p. m. Every Voter Must Register this year.

Will Deliver Address.
J. P. Lamb will deliver an address on "Co-operation" at the meeting of the Franklin Grange tomorrow evening at 7:30 o'clock. The public is extended a cordial invitation to turn out and hear Mr. Lamb. The Grange Hall is located in Franklin township just off the Linnville pike.

RESERVED SEAT SALE.
(ASSOCIATED PRESS TELEGRAM)
Boston, Oct. 4.—Distribution of reserved seat tickets for the world's series baseball games in this city between the Brooklyn Nationals and the Boston Americans which will open on Saturday, began today. Each of the 27,000 seats available for reservation was covered by applications, officials of the local club said.

To prevent the congestion which interfered with traffic last year, sale of admission seats at \$1 and 50 cents will be made from offices on the side of the ground opposite the grand stand entrances.

Wagers were offered here at odds of 10 to 7 on Boston. As yet it was said, no Brooklyn money had appeared.

NEURALGIC PAINS
Shooting pains in the head with dizziness, noise in the ears and tender spots on the scalp—pains in the neck and shoulders or extending down the arms to the hands, these are the most common symptoms of neuralgia.

There are a number of causes of neuralgia. It is most common in families whose members have nervous dispositions and it is very often a result of anemia or lack of blood.

Hot applications give temporary relief in neuralgia and should be used. They cannot cure the trouble because the pain is the complaint that the under-nourished nerve is making and it will not be quieted until the nerve is fed. The only way to reach the nerves with nourishment is through the blood. That is why thin blood so frequently leads to neuralgia. When the blood becomes thin the nerves lack nourishment. Build up the blood, supply to it the elements that the nerves need and you begin to correct the neuralgia.

The free booklet "Diseases of the Nervous System" will interest you. Write for it today to Dr. Williams Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills or they will be sent by mail on receipt of price 50 cents per box, six boxes for \$2.50.

WILL DEDICATE EAGLES' NEST STONE NEXT SATURDAY

The friends of good roads will meet at "Eagle's Nest," near Brownsville, Saturday, October 7th, at 2 o'clock, to unveil a monument that has recently been erected. THE NEWEST REMEDY FOR Backache, Rheumatism and Dropsy.

Kidney, Bladder and Uric Acid troubles bring misery to many. When the kidneys are diseased, these natural filters do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body. There follow depression, aches and pains, heaviness, drowsiness, irritability, headaches, chilliness and rheumatism. In some people there are sharp pains in the back and loins, distressing bladder disorders and sometimes obstinate dropsy. The uric acid sometimes forms into gravel or kidney stones. When the uric acid affects the muscles and joints, it causes lumbago, rheumatism, gout or sciatica. This is the time to try "Annie."

During digestion uric acid is absorbed into the system from meat eaten, and even from some vegetables. The poor kidneys get tired and backache, distressing dropsy, etc., in the "Columbian" is the new discovery of Dr. Pierce for Kidney trouble and Backache. Neglected kidney trouble is responsible for many deaths, and Insurance Company examining doctors always test the water of an applicant before a policy will be issued. Have you ever set aside a bottle of water for twenty-four hours? A heavy sediment or settling sometimes indicates kidney trouble. The true nature and character of diseases, especially those of the kidneys and urinary organs, can often be determined by a careful chemical analysis and microscopic examination. This is done by expert chemists of the Medical Staff of the Invalids' Hotel. If you wish to know your condition send a sample of your water to Doctor Pierce's Invalids' Hotel, Buffalo, N. Y., and describe your symptoms. It will be examined without any expense to you, and Doctor Pierce or his Staff of Assisting Physicians will inform you truthfully.

KNOW YOURSELF.
Read all about yourself, your system, the physiology of life, anatomy, hygiene, simple home cures, etc., in the "Columbian Medical Adviser," a book of 108 pages. Send to Dr. V. M. Pierce, Buffalo, N. Y., three dimes or 30 cents in one-cent stamps for a cloth-bound copy.

TAKE IRON TO PUT COLOR AND YOUTH IN THE CHEEKS, SAYS DOCTOR

Greatest of All Strength and Blood Builders—Often Makes Delicate, Nervous Folks 200 Per Cent. Stronger in Two Weeks' Time

New York, N. Y.—What you need to put color on your cheeks and put the spring time of life in your step, is not cosmetics and patent medicines, but plenty of rich pure red blood in your arteries. Iron is the greatest of all strength and blood builders. A celebrated Cambridge physician and scientist has proved conclusively that the absence of iron in the soil sets up faulty nutrition even in plants and gives them a sickly, pale, weakened look and that without iron there could be no vegetable or animal life. Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good, you don't get the strength out of it and as a consequence you become weak, pale or sickly looking just like plants trying to grow in a soil deficient in iron. Thousands die every year from pneumonia, grippe, consumption, kidney liver or heart trouble, when the real cause, which started this disease was nothing more or less than a weakened condition brought on by lack of iron in the blood. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then try your strength again and see for yourself how much you have gained. I have seen dozens of nervous run-down people who were ailing all the while, double their strength and endurance and entirely get rid of all symptoms of dyspepsia, indigestion and troubles in from ten to fourteen days' time simply by taking iron in the

proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron iron acetate or lactate of iron simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like Nuxated Iron. If you want it to do

MANY MEMBERS WILL BE ADDED TO "Y" IN WEEK

Last evening the lobby of the Y. M. C. A. was a busy place. General Secretary Frank L. Johnson and his assistants were extremely busy signing up members and conducting meetings in connection with the new membership campaign. Former members are joining and many new ones are making inquiry about the privileges and signing up application blanks. The membership council met and made definite plans for the perfecting of the organization so as to do intensive work on Thursday and Friday when the campaign will be in full swing.

Much enthusiasm is being displayed by many of the members who have profited by the privileges of the association in years past. The committee has called a meeting of the captains of teams for a supper conference at the Y. M. C. A. tonight at 6 o'clock. The following men are requested to be present: S. E. Alban, G. G. Barber, H. J. Dickerson, Prof. H. F. Moninger, K. I. Dickerson, J. N. Pugh, Max Norpell, L. T. Rees, A. E. Willert, Harry Doane, C. L. Flory, C. H. Davis.

Spraying Apples Nets Million Where Industry Was Dead

Nearly a million dollars has been realized since 1910 by scientific methods of growing apples in Washington county, Ohio, where formerly orcharding was practically a lost industry according to F. H. Ballou of the Ohio experiment station. Spraying and fertilizing are given as the factors which brought about the change and which has made Washington and Athens counties today the greatest apple growing center in Ohio.

Orcharding in that locality was a failure before Mr. Ballou first started his demonstration work. The starved trees, were made vigorous and productive and by spraying were enabled to resist insect and fungus diseases. A net increase of more than \$100 an acre was secured in some counties by fertilization. Bulletin 301 of the Ohio experiment station gives an account of the work and the results.

Lutheran Church Annual Meeting is Held Tonight

This evening there will be a meeting of the utmost importance to the members of St. Paul's Lutheran church. It is desired that there be a full attendance of the members. At this meeting will be read the reports of the work of the church and its various departments during the past year, the annual election of officers and the laying of plans for the coming year.

DR. CHAMBERLAIN ATTENDS MEETING OF THE ROTARIANS.

Forty-four members of the Rotary club, the entire membership except those who were out of the city, attended yesterday's session at the Masonic temple. George H. Mosser and Ernest Sims were initiated as members. Wilson and Hughes buttons were at each plate while the walls were decorated with pictures of the presidential candidates, Senator Pomeroy, Mr. Herrick, Governor Willis and ex-Governor Cox.

Dr. Clark W. Chamberlain of Granville was the club's guest at lunch and after his address the president of Denison University was elected an honorary member of the organization.

Dr. Chamberlain spoke of the relationship between Newark and Granville and pointed out the fact that the Granville college is a big asset to Newark—in fact is really Newark's college. He spoke of Denison's growth and of the plans that are now being developed for the enlargement and improvement of the college. In a recent interview published in the Advocate Dr. Chamberlain gave details of some of the important things that are about to be done for Denison.

R. B. White and Albert Gleichauf put on a very clever sketch at the conclusion of Dr. Chamberlain's talk to the club.

The organization voted to go to Zanesville Friday evening to attend the Zanesville Rotary club's industrial exhibit and will take along the Buckeye Band.

BICYCLE RIDER STRUCK BY AUTO IN WEST LOCUST

Ford Layman of 437 West Church street was painfully injured, when he was struck by an automobile in West Locust street, Tuesday.

Mr. Layman was riding down Locust street on his bicycle when a machine backing out of a driveway struck him, knocking him off the wheel. He was taken to his home and Dr. William Shrontz was called. It was found that several ligaments in the left foot were torn. He passed a restless night.

Bulgars Admit Enemy's Advance; Cost Was Heavy

Sofia, Oct. 3, via London, Oct. 4.—The Rumanians who have crossed the Danube and invaded Bulgaria are described as "considerable units of troops" in an official statement issued by the war office today which, however, does not report any clash between the Bulgarians and the invaders.

The text of the statement follows: "Macedonia front: East and west of the Danube there was lively artillery activity without any infantry action. In the Moglenica valley, there was artillery, infantry and machine gun fire. On both sides of the Vardar there was weak artillery activity which became more violent south of Lake Doiran. At the foot of the Belaschitz Mountains, there was quiet. On the Struma front there was violent artillery fire on both sides and the fighting near Karadjakoi continues with stubbornness.

"Danube front: We occupied the island of Malakalat on the Danube opposite Vidin. We bombarded with success the post and barracks at Kalafat, near the village of Giudolac, and dispersed by artillery fire a detachment which was preparing to entrench. Near the village of Rahovo the enemy succeeded in throwing a bridge over the river by which he was able to convey across considerable units of troops. Austrian monitors destroyed the bridge at the Dobrudja side.

"In the Dobrudja the enemy's offensive on the Reschau-Amzatzi-Ferveti line was stopped by our fire. Counter attacks on the right wing ended in the repulse of the enemy, who was driven back to his former position. An enemy battalion was practically annihilated and two officers and one hundred men who survived were taken prisoners."

COLLEGE PRESIDENT SUPPORTS WILSON

Boston, Mass., Oct. 4.—Mary E. Woolley, president of Mt. Holyoke College, one of the leading women's educational institutions of the country, in a letter accepting active membership in the Women's Woodrow Wilson League of Massachusetts, says:

"With the highest respect for the candidate of the Republican party, I feel that, in this crisis, it is unwise to change the administration. I agree with President Eliot that an extraordinary amount of good work has been done during the present administration and that the man chiefly responsible for this consummate service to the American people should be again their chief servant."

Dewey Hanes May Land Corn Title Again This Year

The champion grain grower of Ohio, Dewey Hanes, is again in line for the state championship with his 1916 acre of corn. While he may not beat his last year's record of 153 bushels of corn from one acre as he had hoped to do, present indications are that his yield will be very close to his former record.

Last year Dewey also raised an average of over 55 bushels of wheat per acre. This year, on his corn crop, he is cutting down expenses of production in order to secure greater net profits per bushel, but is again depending upon a heavy application of fertilizer to give his crop a good start and carry it along to maturity.

SUPT. HAWKINS TO VISIT CINCINNATI SCHOOLS THIS WEEK

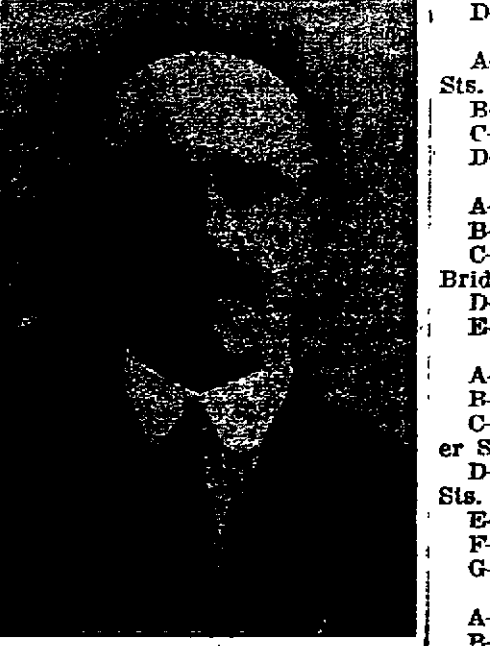

The board of education met at their office in the High school building in West Main street, last evening with Hon. Wm. E. Miller presiding. Other members present were Messrs. W. C. Christian, Ben Montgomery and J. M. Mitchell. After the minutes of the last meeting had been read and approved bills for the past month were read and ordered paid.

Superintendent Wilson Hawkins stated that he and President Miller had met Mr. Stitzer, government naturalization agent, and that gentlemen was greatly interested in the establishment of a night school for foreigners. Mr. Stitzer stated that the school of two years ago accomplished much good and he was sure that great benefits would result should the board resume sessions along the same lines.

Mr. Stitzer was assured that the board would willingly take up the project again this year providing the manufacturers of the city would co-operate with it. Employers could assist in making the school a success by requesting their employees to attend the school. The matter will be pushed by the superintendent and the Chamber of Commerce will also be requested to co-operate in making it a success.

Superintendent Hawkins was granted three or four days leave of absence to attend a conference at Cincinnati, during which time he will visit the schools of the Queen City, Dayton and Hamilton.

MRS. M. J. BOWERS FOR NERV-WORTH

Tells Druggist T. J. Evans Why She Recommends It to Others.

Her reasons are excellent, as this her signed statement proves: "I have used two bottles of your Nerv-Worth."

"Was very nervous and sleepless, with weak stomach, before using said medicine six months ago, and it did me lots of good."

"And I will say I believe if I had kept on it would have cured me of my nervous trouble entirely. So I recommend it to others."

(MRS.) "MARY J. BOWERS." Nerv-Worth calms the nerves, rouses the liver, regulates the bowels, restores restful sleep, wonderfully aids digestion, banishes sick and nervous headaches and other aches and pains, whets the appetite, puts on new flesh, builds up run-down systems. If it does not do this for you your dollar back at the T. J. Evans Drug Store, Warden Hotel block.—Advertisement. 10-4-6
